De Windt, Harry. Siberia as It is. London: Chapman and Hall, 1892.

Pp. xxiv, 504; frontispiece; 29 line drawings; 7 appendices.

Yale: Eeac. 891D.

[RCH: Mr. DeWindt's book is mainly a report on the Russian prisons and on the Siberian exile system, based in part on his reading and in part on a trip to Russia in 1890. The trip was made solely to inspect the prisons and it did not extend farther east than Tomsk. There are, in Chapter VII, 6 pages of remarks on the Yakuts, but since this material is all secondary and of no value it has not been excepted for the files.]
